

# Green Note Basement Bar Tech Spec

## SOUND EQUIPMENT

**PLEASE NOTE:** The Basement Bar is a very intimate space and usually we only put voice through the PA so that it can be heard clearly above the acoustic sound of the piano/instruments on stage. The room is small enough that the singers can hear themselves acoustically or through the FOH instead of using monitors.

### **Mixing Desk:**

Allen & Heath PA 12-CP (Built in FOH Amp)  
8 XLR Mono inputs  
4 band EQ with 1 mid sweep & cut/boost at 250Hz  
Built in Reverb/FX

### **Front Of House:**

2x Turbosound TXD 081 (8" Speaker)

**NO MONITORS IN HOUSE**

## STAGE EQUIPMENT

### **Wall Box:**

8 x Input / 4 x Output wall box (All XLR)

### **Microphones:**

5 x SM58 Vocal Microphones

### **DI Boxes:**

4 x Orchid Electronics DI Boxes

**Leads: (approx. – exact number fluctuates)**

8 x XLR

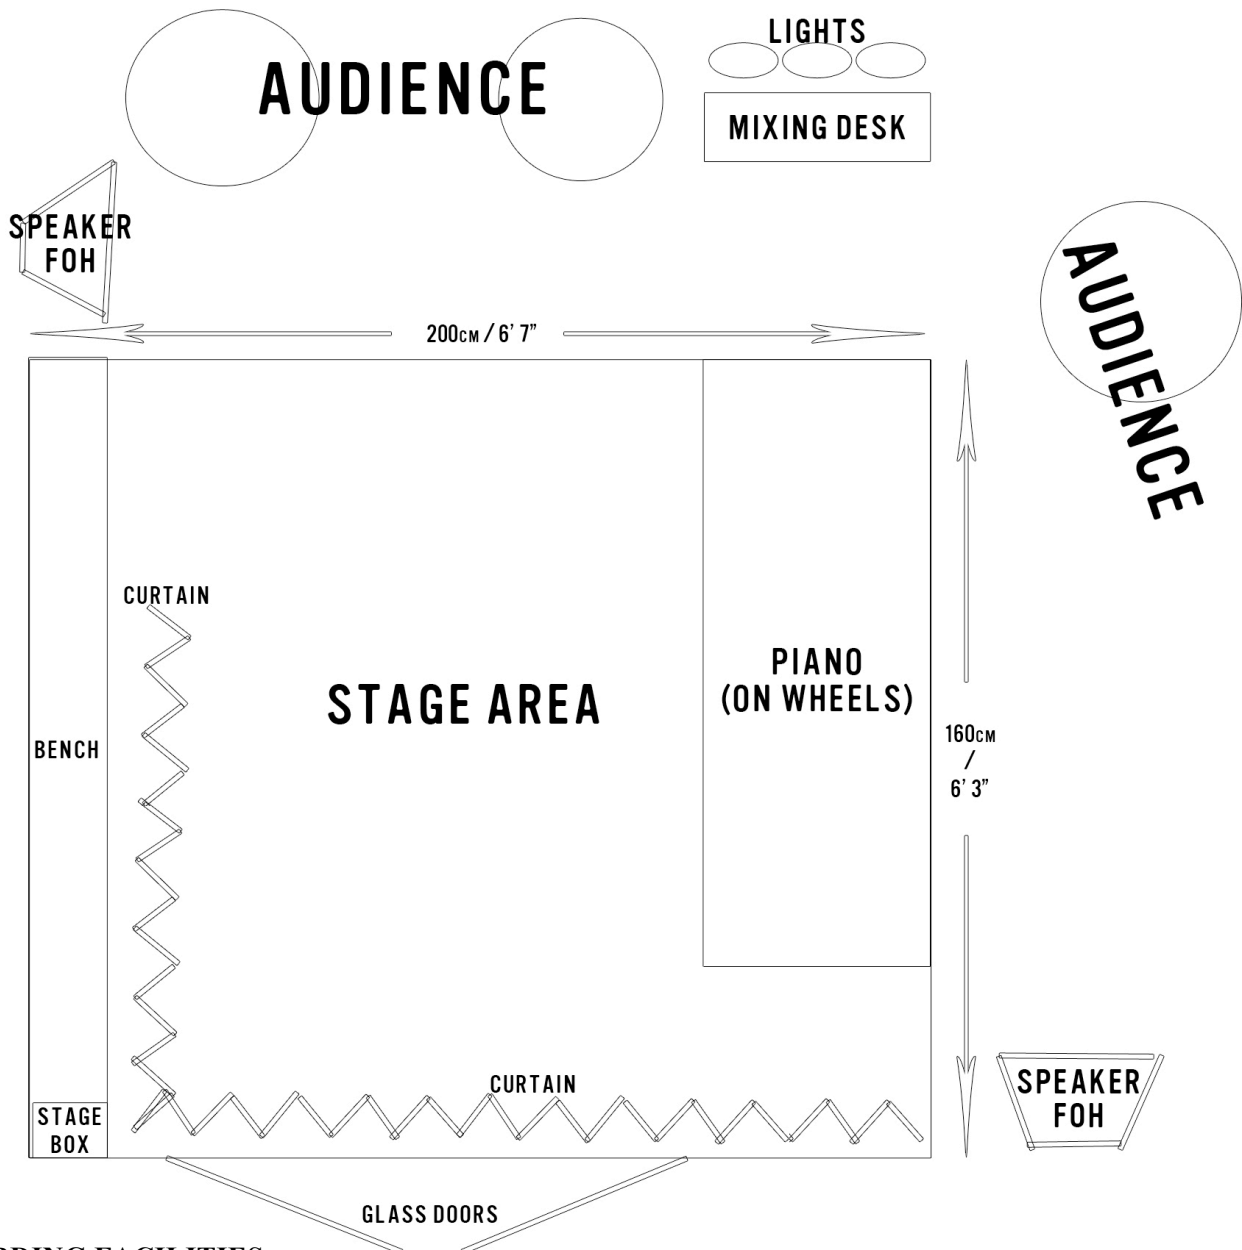

Several Mono \_" Jack – Mono \_" Jack

**Stands: (approx. – exact number fluctuates)**

4 x Mic Stands

## LIGHTS

3 X Halogen Spots on individual faders positioned above the Mixer and focused at the stage  
Pink filters in place (can be swapped if you bring your own gels)

## RECORDING FACILITIES:

See [www.outlandishaudio.com/green-note](http://www.outlandishaudio.com/green-note). Multi-track audio and multi-cam video available by advance request.
